MEDICO LEGAL EXPERIENCE:

Dr Logan is a highly experienced Consultant in Pain Management with over 29 years of experience acting as an Expert Witness. His expertise are in assessment, treatment and rehabilitation of adults with chronic and complex pain conditions.

As an Expert Witness, Dr Logan has prepared more than 100 medico-legal reports each year and is instructed by both Claimants and Defendants in personal injury and clinical negligence cases. While he has historically acted predominantly for Claimants, he now undertakes an increasing number of Defendant instructions. He has attended Court on more than five occasions and his commitment to delivering expert testimony is exemplified by his courtroom experience, including his pivotal role in a case in 2020 where his report played a decisive role in determining the outcome.

He is happy to opine meticulous reports covering causation, condition and prognosis, liability and breach of duty.

Dr Logan remains at the forefront of developments in pain through by actively participating in leading international conferences and professional societies. He has attended conferences and courses, he takes it upon himself to attend the World Pain Congress Montreal, 2020 and the European Pain Federation (EFIC) meeting in Florence in 2013 and the British Pain Society Annual Scientific Meeting in 2014 and 2015.

Dedicated to advancing knowledge in pain management, Dr Logan has served as a member of the Merseyside Pain Training Advisory Committee and continues to train general practitioners, nurses and patients in effective pain management and rehabilitation strategies.

CLINICAL EXPERIENCE:

Dr Logan is a Consultant with 24 years' experience in the Countess of Chester NHS Trust, now exclusively engaged in private practice and medico-legal reporting. His expertise lies in anaesthetics, pain management, chronic and neuropathic pain, with a particular focus on adult pain relief, rehabilitation for painful conditions and fibromyalgia.

His professional involvement encompasses the comprehensive assessment and treatment of patients with long-term pain or acute exacerbations of pain.

Dr Logan is renowned for his holistic approach to pain management, offering multidisciplinary pain management programs and tailored long-term treatment plans for complex chronic pain conditions that may not respond to conventional therapies. He employs various modalities of pain relief, including transcutaneous electrical nerve stimulation (TENS), pulsed electromagnetic fields (PEMF), percutaneous electrical nerve stimulation (PENS), pulsed radiofrequency treatments and advanced interventional techniques like spinal cord stimulation.

 **Medical & Legal
Admin Services**

Dr Logan operates his own fully equipped unit, which is soon to receive CQC approval. He also oversees a team of professionals and collaborates with several private hospitals. While he maintains a broad scope of practice, he prefers to avoid highly specialised and serious psychological issues, considering himself a "general interventionist".

Dr Logan is also engaged in another healthcare venture serving the NHS, acting as a shareholder and advisor.
