MEDICO LEGAL EXPERIENCE:

Ms Lynda Lee is a highly experienced and qualified Nursing Consultant and Care Expert with 14 years of experience as an Expert Witness. She has completed Bond Solon Expert Witness training, and is instructed by Claimants and Defendants in clinical negligence, personal injury, and criminal cases. She also acts as a Nursing advisor and Expert Witness for the police, and has experience in attending Court in both civil and criminal cases.

Ms Lee is skilled in completing reports in a wide range of medical and legal matters, including clinical negligence, personal injuries, criminal cases, liability & causation, condition & prognosis, and quantum cases.

In addition to her extensive experience as an Expert Witness, Ms Lee also has a wealth of clinical experience, including 21 years as an ICU nurse for both adults and children. She has also worked as a Children's Community Nurse, including in a hospice environment. This clinical experience gives Ms Lee a deep understanding of the medical and nursing issues involved in the cases that she works on, and allows her to provide expert and informed advice to her clients.

CLINICAL EXPERIENCE

Ms Lee has over 30 years of experience in the healthcare industry. She has worked in a variety of settings, including intensive care units, hospice, and community care. Ms Lee has extensive experience with a wide range of medical conditions, including life-limiting conditions, multi-organ failure, obstetric emergencies, organ transplantations, neurological conditions, acquired brain injuries, oncology, and complex neurological disabilities.

As the senior nurse in intensive care for 15 years, she was responsible for management of people, change, resources, maintaining and improving quality, decision making and professional advice.

As head of care for two childrens hospices, Ms Lee was the registered manager for the Healthcare Commission (now Care Quality Commission) commissioned a new service and ensured the accommodation and facilities met the physical and psychological needs of children and young people with profound disabilities. She had responsibility for policies and procedures in line with national and local guidelines.

Until August 2021, Ms Lee was a bank nurse in a private hospital, nursing paediatric patients in recovery on the ward post-operatively, and adults in the High Dependency Unit (HDU).

She maintains her RGN and RSCN registration with the Nursing and Midwifery Council.
