MR PAUL SUTTON

CONSULTANT ORTHOPAEDIC SURGEON

MBCHB, FRCS(ED), FRCS(ENG), FRCS(TRA & ORTH)

CASES RELATING TO:

Clinical negligence cases relating to:

- Lower limb (speciality area - knee)
- Knee replacement (partial and total)
- Joint and cartilage replacement/repair
- Latrogenic cartilage damage
- Gait analysis
- Posterior cruciate ligament rupture
- Osteoarthritis of the knee
- Chondral injury and surgery
- Lower limb trauma
- Sports injuries to lower limb
- Anterior cruciate ligament injuries
- Knee arthroscopy (keyhole surgery)
- Patella stabilisation surgery
- Surgery for the arthritic knee
- Tibia fractures
- Femur fractures
- Post-operative complications (infections/stiffness)
- Patellar dislocations
- Meniscal repair surgery
- Open reduction internal fixation (ORIF)
- Soft tissue knee conditions
- ACL reconstruction
- Chronic knee pain
- Autologous chondrocyte implantation surgery
- Knee bursitis
- Knee dislocation
- Knee instability
- Lower limb exertional compartment syndrome
- Open reduction internal fixation
- Patello-femoral joint replacement surgery
- Tibial osteotomy
- Trochleoplasty
- Delayed referral to orthopaedics
- Inadequate consent before surgery
- Poor surgical technique:
 - Malpositioned implants
 - Wrong-site surgery
 - Retained foreign body

MEDICO LEGAL EXPERIENCE:

Mr Sutton has carried out medico-legal work for over 20 years, providing thorough and detailed reports on a range of cases covering knee conditions and surgery. His current medico-legal practice is exclusively limited to providing expert reports for claims specific to conditions or injuries of the knee.

Mr Sutton has prepared reports under instruction for both Claimant and Defendant cases. He has experience giving expert evidence for medico-legal cases including Coroner's requests, GMC tribunals and Criminal cases. Mr Sutton can opine on condition and prognosis, breach of duty, liability and causation.

He is renowned for his expertise in all types of knee surgery, including sports injuries as well as joint and cartilage replacement, also specialising in surgery for anterior cruciate ligament injuries and cartilage repair.

CLINICAL EXPERIENCE:

Mr Sutton was appointed to Sheffield Teaching Hospitals as a Consultant Orthopaedic Surgeon with a special interest in knee surgery in May 2001. Working in such a large Teaching Hospital department allows a high degree of specialisation and his work is now exclusively limited to conditions and injuries of the knee. This includes a significant volume of complex knee surgery and 'second opinion' referral work.

Mr Sutton also performs Autologous Chondrocyte Implantation Surgery (ACI). This surgery can only be performed in a few specially licenced hospitals within the UK. He has published many scientific papers and book chapters related to knee injuries and their treatment.

Within his NHS practice he treats adult patients of all ages, and athletes of all abilities. In private practice he treats a similar patient group, including elite athletes; gaining extensive experience treating premiership footballers, rugby players and Olympic athletes.

Over the course of his career, he has been involved in many research projects and scientific publications both as lead investigator and as supervisor for surgical trainees. He has published numerous articles relevant to general Orthopaedics and knee surgery in peer review journals and much of this research has been presented at National and International meetings. He is also a shareholder and founder member of Sheffield Orthopaedics Ltd.
