His passion for neurosurgery led him to The Institute of Neurological Sciences in Glasgow, where he underwent specialised neurosurgical training. John continued his experience at The Walton Centre for Neurology and Neurosurgery and Alder Hey Alder Hey Children's Hospital in Liverpool, UK.

He completed his Paediatric Neurosurgery fellowship training at Great Ormond Street Hospital, London, UK.

A notable aspect of John's career is his involvement in formal academic research at The University of Manchester, where he contributed to The Brain Injury Research Group's efforts, focusing on neurosurgical aspects of cerebrospinal fluid (CSF) infection. This research experience has further enriched his knowledge and ability to provide evidence-based care for his patients.

John's main areas of clinical interest are neuro-oncology and epilepsy. He has a specialist interest in epilepsy surgery and is a member of the regionally commissioned epilepsy surgery service (Norcess).

John is dedicated to training junior neurosurgeons in the North West. He is an assigned educational supervisor for trainees rotating through the department of neurosurgery.

Areas of Practice:

Mr Kitchen has comprehensive expertise in all aspects of Paediatric Neurosurgery. He specialises in Neuro-oncology, focusing on brain and spinal tumor diagnosis and treatment in paediatric patients, and is highly regarded for his expertise in Paediatric Epilepsy Surgery.

John's clinical practice encompasses various neurosurgical areas, including trauma management, hydrocephalus, neuro-endoscopy, Chiari and syringomyelia treatments, spinal dysraphism interventions, and neurological infection management.
