CLINICAL EXPERIENCE:

Dr Sethi has special interest in 'Shaken Baby Syndrome'(SBS), a condition he believes is preventable. It is only through awareness and education this can be prevented. Shaken Baby foundation, USA has recognised Dr Sethi as a World Expert in SBS.

Dr Sudhir Sethi has been a Consultant Paediatrician for over 30 years. He has special interests in Child Protection Issues, Child Health, Children's Rights, International Child Health and Child Public Health. He completed his earlier training in India, and came to the UK after completing his MD in Paediatrics from the University of Bombay, India.

Dr Sethi has since completed his Masters in Public Health(MPH) from Nottingham University, UK in 2003. He is a Fellow of Royal College of Paediatrics and Child Health (FRCPC), and an International Board Certified Lifestyle Surgeon (DipIBLM).

He has been involved in International Child Projects in Nepal, Palestine and India. Has worked in Balkans during the crisis working with Kosovan refugees and training child health professionals at the University of Sarajevo, Bosnia.

His special interests are in the areas of Lifestyle Medicine, Child Protection and, Children's Rights, International Child Health and Child Public Health.

Dr Sethi has extensive media experience, having undertaken formal training in "Handling the media" via the BBC and LPT (Leicester Partnership Trust). He has contributed to newspapers, regularly reporting on the projects that he has been involved with e.g. Topics connected to health like Prevention of Shaken Babies, Bosnia, Breast Feeding (Baby Friendly Initiative, UNICEF) Immunisation & Ricletts

Dr Sethi also remotely contributes to radio shows on child health, and welfare. Also he actively involved with training, research and has presented many presentations regionally, nationally and internationally.
