#### *Mismanagement following diagnosis of:*

- Spinal cord compression
- Asthma
- Arthritis
- Bladder/kidney/urine infections
- Osteoporosis
- Endometriosis
- Irritable bowel syndrome (IBS)
- Appropriate referral to clinicians: neurologist/orthopaedics/gynaecologist/physiotherapist

## MEDICO LEGAL EXPERIENCE:

Dr Orr has been a Partner in General Practice since 2003, including seven years as a Senior Partner, with extensive experience in clinical governance, complaint resolution, and multidisciplinary decision-making. Over the course of his career, he has participated in more than 100 appeal meetings, demonstrating particular expertise in disability and fitness-to-work assessments, and the evaluation of complex medical evidence in contested cases.

He accepts instructions from both Claimants and Defendants in personal injury and clinical negligence matters, maintaining a balanced 50/50 caseload, and has pending trial dates in several ongoing cases. Dr Orr is undertaking Bond Solon Expert Witness training and adheres strictly to Civil Procedure Rules Part 35. His medico-legal work includes the preparation of detailed, CPR-compliant reports and joint statements, and he can provide evidence in court when required.

Dr Orr has completed numerous expert reports covering issues such as delays in referral and recognition of symptoms, the standard of care in General Practice, mismanagement following diagnosis, and the appropriateness of clinical decision-making. His reports are noted for their clarity, independence, and robust reasoning, and he is experienced in working to tight deadlines while maintaining the highest professional standards.

With a special interest in Cardiovascular Medicine, Dr Orr has produced comprehensive reports addressing the management and prevention of cardiovascular disease (CVD), Atrial fibrillation (AF), and Hypertension. He also draws upon his experience as a senior clinical decision-maker during the Covid-19 pandemic to provide expert comment on the standard of care and decision-making within primary care settings under unprecedented pressures.

## CLINICAL EXPERIENCE:

Dr Orr spent two years working full-time in Accident and Emergency during the pandemic and can report on cases relating to Covid-19. He was a senior decision maker in the Emergency Department and has worked with a team of junior doctors to provide acute care in a busy Accident and Emergency Department.

He is also a Rural Emergency Physician, spending three months in the department of Anaesthetics and Critical Care in the Queen Elizabeth University Hospital, Glasgow at the height of the Covid pandemic, gaining extensive experience in critical care and advance airway management.

Dr Orr has worked in the most deprived inner-city to remote and rural islands, from chronic disease management and acute emergency care. He has worked closely with two professors at Glasgow University on a number of areas surrounding deprivation and general practice.

Serving 7000 patient in a mixed demographic semi-rural community in East Ayrshire. Dr Orr prides himself in providing high quality patient centred care while continuing to expand his skills and experience.

Prior to nursing homes becoming a centralised service in Glasgow, Dr Orr looked after the medical needs of two nursing homes.

Further to Dr Orr's impressive qualifications, he also holds a Postgraduate Certificate in Diabetes Care.
