MEDICO LEGAL EXPERIENCE:

Dr Woodall is a General Practitioner and Expert Witness. He is in the process of completing his Bond Solon training in expert report writing and is instructed by Claimants and Defendants in clinical negligence and personal injury cases.

Dr Woodall is a leading case investigator and a GP Practice Inspector for Healthcare Inspectorate Wales, he undertakes GP Inspections to ensure compliance with current good medical practice in primary care. He is also one of their Senior Case investigators for all deaths in custody (prisons or police custody suites) in Wales, carrying out over 50 inspections of practices and case investigating of any deaths in custody in Wales prisons, producing high quality reports.

Dr Woodall is happy to opine on causation, liability, condition and prognosis and breach of duty.

CLINICAL EXPERIENCE:

Dr Woodall was a GP partner for nearly 15 years, he is now at Powys Teaching Health Board (PTHB) as a GP principal, leading in integrated care, he provides specialist GP care to patients with serious mental illness/substance misuse who rarely attend primary care, expert opinion on physical health problems for patients in psychiatric and community hospital wards.

He continues to work as an out-of-hours GP, as a locum GP in understaffed practices across the UK and provides expert input on complex cases with multimorbidity and polypharmacy.

Dr Woodall is Honorary (visiting) Professor at the University of South Wales and Honorary Clinical Senior Lecturer in Primary Care and Mental Health at University of Liverpool. He worked for two years as a medical research scientist at the University of California Berkeley, he has also published over 40 papers of international impact that has led to government policy change within the UK.

Dr Woodall has 21 academic prizes, awards and fellowships spanning his career throughout science and medicine. Having over 40 publications these include peer-reviews, research papers, reviews, book chapters discussions and debate papers.
