☎ 0114 245 5423

Haywood House Unit 1a Hydra Business Park
Nether Lane, Ecclesfield, Sheffield, S35 9ZX

He travels nationwide to deliver hearing evaluations in clinical settings, operating dedicated medico-legal audiology clinics across the UK. He collaborates closely with legal professionals, insurers, and medical experts to provide impartial, evidence-based audiological reports that stand up to scrutiny in legal proceedings.

Mr Rashid has a strong understanding of Noise-Induced Hearing Loss (NIHL), acoustic trauma, tinnitus, and industrial deafness. He is highly skilled in the differential diagnosis of hearing conditions, including sensorineural, conductive, and mixed hearing loss.

Mr Rashid is also proficient in advanced audiometric testing techniques and is committed to delivering accurate, objective reports that contribute to fair and informed legal outcomes. He is instructed by both claimants and defendants and is happy to opine on causation, condition and prognosis, breach of duty, and liability.

He is able to provide oral evidence in court when required.

CLINICAL EXPERIENCE:

Mr Rashid is a HCPC-registered Audiologist with extensive experience across the NHS and private settings. He specialises in sourcing services to reduce patient backlogs and enhancing access to hearing care across the UK. He is particularly skilled in diagnostic audiology, hearing aid fitting, Real Ear Measurements (REM), and patient-centred counselling.

Mr Rashid is highly skilled at working flexibly across fast-paced environments, collaborating with multidisciplinary teams, and using evidence-based approaches to improve patient outcomes. He is proficient with a wide range of hearing aid technologies, including Phonak, Oticon, and GN. He is committed to clinical excellence, service improvement, and empowering patients through education and support.

Mr Rashid provided NHS services across multiple hospital trusts in the UK, including Newcastle, Nottingham, Norwich, and Worthing. He has delivered high-impact clinical support aimed at reducing patient backlogs and improving access to timely audiological care. He also conducts a wide range of audiological assessments, including pure tone audiometry, bone conduction testing, tympanometry, and REM, using state-of-the-art diagnostic equipment and evidence-based protocols to ensure precise results and accurate diagnoses.

Mr Rashid's clinical expertise includes the differential diagnosis of hearing loss and the prescription, fitting, and fine-tuning of both NHS and private hearing aids, such as receiver-in-canal (RICs) devices.

 **Medical & Legal
Admin Services**

He has provided personalised, lifestyle-focused consultations to ensure that each patient receives hearing solutions tailored to their individual needs and preferences. This includes comprehensive patient education on hearing aid use, maintenance, and long-term care, as well as delivering ongoing support through follow-up appointments, aftercare services, and technical troubleshooting.

Mr Rashid worked collaboratively with Ear, Nose, and Throat (ENT) consultants and local audiology teams to support high-volume ENT clinics, streamline clinical pathways, and ensure seamless integration of insourcing services into existing NHS frameworks. His ability to work flexibly across fast-paced environments while maintaining high clinical standards has directly contributed to improved patient outcomes, reduced waiting times, and enhanced service continuity across multiple healthcare sites.
